

# saveBOARD formWORK

## Premium F7 Grade Equivalent

### Specification Sheet

saveBOARD has developed a concrete form work panel made from construction soft plastics and recycled saveBOARD offcuts and end of life returns. It has a smooth finish from the soft plastics surface suitable for concrete formwork. It comes with a painted edge, finished with a natural finish (no chemicals or secondary coatings) which gives the concrete a high-quality matt finish. It is suitable for residential foundations to civil engineering structures such as plinths with sufficient bracing support.

saveBOARD products are equivalent to F7 Grade plywood, so will need additional supports compared to F14 or higher-grade plywood products. We expect the saveBOARD product can be reused up to 10 times, if properly stored and cleaned in between uses.

### Product Info

Code	Sheet Size	Thickness	Weight	Core	Structural Rating	Finish	Face Grade
SBFP	2400 x1200	15mm	40kg	Recycled	F7 Grade	Natural	Painted Edge

### Technical Specs

Colour	Natural
Bond	Soft Plastics
Density	950 kg/m <sup>3</sup>
Origin	Warragamba, NSW

### Return for Recycling

Recycled Content	99%
Concrete Debris	Brush Clean
How to Return	Palletise and send
Cost / Gate Fee	Free, client pays freight

### Handling, Storage & Cleaning

saveBOARD is a composite product that can be affected by changes in weather conditions: moisture and temperature. We recommend that the sheets are covered and/or stored inside when not used to increase the longevity and number of reuses possible. The surface should be cleaned with a soft brush or timber wedge – do not use a wire brush or abrasive tools.

### Why saveBOARD?

- Made from construction soft plastics, providing a tangible circular economy solution
- 90% lower carbon footprint than plywood
- Can be used without concrete release chemicals such as formol or formwork oil.
- Recyclable at end of life, helps with Greenstar and sustainability outcomes.
- Can be pre-cut to suit, full sheets or planks up to 3.0m long.
- Competitively priced and available now.
